## Detroit Tuned Dynamometer Release Form

**Detroit Tuned, LLC (“DT”)** will take every step to ensure the safe and proper running of any dynamometer (“dyno”) time. DT reserves the right to refuse the use of the dyno for appropriate safety reasons pertaining to the staff, customers, bystanders, vehicles, or equipment. DT is solely responsible for the operation of the dyno and reserves the right to end the dyno runs, time, or sessions for any reason.

**Testing your car on the dyno will push your vehicle to its mechanical limits.** It is your responsibility to ensure that your vehicle is in good working order and capable of handling the stresses incurred when your vehicles limits are reached. This includes, but not limited to, proper oil level, properly functioning cooling system, any/all powertrain components and good tires. DT is in no way responsible for any damage that your vehicle may incur before, during, or after your vehicle is operated on the dyno. Any damage caused to the vehicle’s transmission, transfer assembly, engine, chassis, suspension, drive train components, tires, clutch, and brakes are the responsibility of the vehicle owner. Any expenses related to clean-up from any damage would be the responsibility of the vehicle owner. Circumstances can arise on the dyno that are beyond the control of DT and the customer should note that **engine failure is a distinct possibility. DT takes no responsibility of any failure of any kind with the vehicle.**

**I hereby acknowledge that I am an authorized operator and/or owner of the below vehicle and am aware of the potential risks involved with the dyno testing. I waive any, and all claims against DT, the owner, the property owner, the employees and any affiliates/subsidiaries for any damage to my vehicle as a result thereof. I am aware that I have certain legal rights and that by signing this waiver I am forfeiting those rights.**
